

"Some Of Our Infantrymen Are Wearing More Than Seven Battle Stars. They Don't Have To Be Asked To Make Still Another Landing. They Know That Each One Helps To Shorten The War. No One At Home Who Wants To Help Shorten The War Should Have To Be Asked To Support The 7th War Loan." Gen. J. W. Stilwell

ADAMS EXCEEDS SECOND QUOTA IN BOND DRIVE

Adams counties cleared the second of three hurdles in the "Mighty Seventh" war loan drive today with the announcement of \$657,163.50 in sales of Corporate bonds, exceeding the county quota by more than \$7,000.

Several days ago the county topped its quota of \$750,000 for bond sales to individuals (except E bonds), achieving two of the quotas assigned the county.

The third quota, that of E bond sales to individuals totaling \$700,000, has not been reached and the progress in this effort was markedly slow. Today's figures reveal sales of \$459,937.50 thus far in the campaign with a little more than two weeks left in the drive.

Top State Quota

Philadelphia, June 21 (AP) — Pennsylvania's banks, insurance companies and corporations have exceeded their \$433,000,000 Seventh War Loan quota after little more than two days' purchases, the state War Finance committee announced today.

Corporate purchases through Tuesday totaled \$441,400,000 or 101.9 per cent, G. Ruhland Rebmann, Jr., committee chairman, said.

A continued lag in E bond sales was reported with purchases through Tuesday reaching only \$183,800,000 or 63.8 per cent of the state's \$288,000,000 E bond quota.

National Goal

Washington, June 21 (AP) — It appeared today that the \$14,000,000,000 goal of the 7th War Loan drive is about to be passed with few hiccups and no let-up in bond-selling efforts.

Treasury officials say there's still far too much work to be done for celebrations now.

The biggest task of the drive is to borrow a record-breaking \$7,000,000,000 from individuals — \$4,000,000,000 in the form of Series E bonds bought by small investors. And that task is a long way from being finished.

The Treasury announced individual sales amount to \$6,063,000,000 but E-Bond sales are at only \$2,723,000,000.

The corporation sales figure is \$6,979,000,000, so close to the \$7,000,000,000 corporation quota that it is certain to go over the top today and keep on going.

The drive officially ends June 30, a week from Saturday. Bond money processed after that will count toward the drive through July 7.

ADmits THEFT OF FURNITURE

Guy Emly, 67, Gardner R. 1, pleaded guilty to burglary charges before Justice of the Peace Robert P. Snyder, Wednesday, in connection with the theft of furniture and personal property from the home of Sgt. and Mrs. William Ingle, Aspers R. D., June 13.

The burglary took place, according to State Police who investigated, while Sgt. Ingle was overseas and his wife was living with her mother, Mrs. Clayton Gulse, Biglerville, R. D. Sgt. Ingle, a carpenter with the Army Air Forces in Hawaii, is still on foreign service, and his wife is working at the American Chain Works, York.

The stolen property has been recovered and partially identified and will be turned over to the rightful owner within a few days, police said.

Emly was committed to the county jail without bail for sentence court. Bail in such cases is fixed by Judge W. C. Sheely upon petition by the defendant.

ELKS' EFFORT IN WAR WORK IS REVEALED

A resume of the Elks' war activities, presented last week to President Truman, to the Secretaries of the War and Navy and to members of Congress, revealed an expenditure of \$1,300,000 by Elks lodges, according to the Elks War Commission, which conducts the fraternity's war program.

265 congressmen, all of them Elks, were presented with copies of the Report to the Nation.

In accepting the Report to the Nation, President Truman praised the war accomplishments of the Elks as "a record of which the Order of Elks and the whole nation can be proud." Said the President:

Lauded By President

"What you have done needs no praise from me. The report speaks for itself. It is the inspiring story of the efforts of seven hundred thousand American citizens in the war, of the eighty thousand of them who have actively served our nation on land and sea and in the air; of the thousand and more who have made the supreme sacrifice. That is a shining record—a record of which the Order of Elks and the whole nation can be proud."

From governors of the States and from mayors of 1,425 cities where Elks' lodges are located, messages praising the war activities of the Elks were sent to Dr. Barrett.

DISTRIBUTION OF MEAT REVISED IN 10-COUNTY AREA

Warning of a stepped-up enforcement campaign aimed at bringing about a more uniform distribution of meat, the OPA today reminded slaughterers of this 10-county district that they must distribute their available meat in the future in the same manner as they did in the first three periods of 1944.

In addition, all slaughterers must, on or before June 30, report to the OPA, the amount of meat, by weight that they delivered to each county or trading area in their first three full reporting periods in 1944. This report must be prepared by the slaughterers to show the average weekly amount of meat that was delivered into each county or trading area.

In commenting upon the new meat order, Walter C. Young, District OPA director, stated: "A large part of the present faulty distribution of meat is due to the fact that for some reason or another slaughterers have changed their normal pattern of geographical distribution. In some cases the slaughterers have withdrawn entirely from areas they ordinarily served and in other cases, they have drastically changed the proportion of available supplies going into some areas."

Equal Divisions

"This new fair distribution plan will not assure each city, town or county that it will be able to get as much meat as it got in 1944. The total supply available for both the armed forces and civilians just won't stretch that far. However, we do expect that the plan will bring about a more equitable distribution of meat, assuring all consumers their fair share."

The new order affects all commercial slaughterers both large and small—federally inspected and non-federally inspected. Three classes are established: Class 1—all federally inspected slaughterers; Class 2A—

100F TO MARK CENTENNIAL

At Tuesday evening's meeting of Gettys Lodge, No. 124, Independent Order of Odd Fellows, held in the lodge rooms on Chambersburg street, steps were taken looking toward observance of the one hundredth anniversary of the institution of the local lodge.

The institution of the lodge occurred on September 15, 1845, due to the efforts of Robert D. Armor, an Odd Fellow who had affiliated with Columbus lodge, No. 75, in Chambersburg, before coming to Gettysburg to follow his trade of silversmith in the carriage building trade, one of the principal industries in Gettysburg at that time.

The action taken at Tuesday's meeting included the appointment of a general committee to formulate plans for the exercises to be held in the fall, possibly following the anniversary date. Attorney William L. Meals was named to head the general committee with the following associate members: Clarence A. Heiges, Ervin H. Menges, J. Frank Dougherty, Morris W. Stansbury, Luther E. McDonnell and Jesse E. Snyder, with George R. Martin, noble grand; H. Wayne Weagly, vice grand, and Samuel G. Sollenberger, district deputy grand master, as members ex-officio.

This general committee will be empowered to appoint sub-committees and add other members as may be required. It was understood at the meeting that efforts will be made to secure sovereign grand lodge and state grand lodge officers as speakers if possible.

\$25 BOND SEATS AVAILABLE FOR SOLDIERS' SHOW

The Seventh War Loan bond premiere to be presented in the Majestic theatre next Tuesday evening will be featured by a talk by Lt. Jack Stettner, of Brooklyn, New York, pilot of a B-24 Liberator, it was announced today by Sydney J. Poppay, manager.

Lt. Stettner joined the Army in 1942 and was commissioned in July 1943 at Altus, Oklahoma, as a pilot. He went overseas in May 1944 and flew in China with General Chen-nault's "Flying Tigers." He has 400 combat hours to his credit, his work being the bombing of harbor installations, docks, warehouses, etc.

He and his crew bailed out 20 miles from enemy territory when their supply of gas failed. They were reported missing for five days. Through the help of friendly Chinese, they returned to safety with the exception of one man, Lt. Stettner and his crew sank eight Jap ships and a possible ninth.

Many Seats Available

Lt. Stettner, who returned to the United States last February and now stationed at the Atlantic City Re-distribution station, wears two Distinguished Flying Crosses, 2 Air Medals, 3 Battle Stars, Philippine Liberation and Asiatic Pacific Theatre Ribbon.

Tickets for reserved seats at the bond premiere, when "Calliope Capers," will be the attraction, are going well with the exception of the \$25 seats, 97 of which were available Wednesday night. Other tickets, remaining to be sold are 62 at \$5.00, 57 at \$1.00, 46 at \$1.00 and 7 at \$5.00. Mail orders for tickets will be accepted at the theatre.

SUMMER BEGINS AT 2:52 P. M.

Summer started officially at 2:52 p. m. today.

Although temperatures earlier this month brought the season in unofficially it's today that the sun crosses the Tropic of Cancer, its northernmost limit, and then starts its trek back toward the south.

The low temperature for Tuesday night was 64. High for Wednesday was 81; low, 60. At noon today it was 81 degrees.

VFW WILL GIVE BENEFIT DANCE

The Ladies' Auxiliary and Post 15 of the Veterans of Foreign Wars met in joint session Wednesday night to discuss plans for the formal opening of the Welfare and Building Fund campaign.

A benefit dance will be given July 3, in the Hotel Gettysburg annex as part of the observance of VFW week which begins the first of July.

Plans for the participation of the auxiliary in the fund raising campaign were discussed and among the various projects tentatively outlined were rummage sales, bazaars, suppers and similar entertainments.

Cards were distributed authorizing the solicitation of funds by the bearers and posters handed out for distribution calling attention to VFW week.

The cooperation of the merchants and private individuals in Gettysburg and Adams county was praised by Luther Dietrich, manager of the Coffman Fisher store, who stated that public support was strong and that funds and advertising space in The Times had been pledged by several persons and business concerns the names of which will be announced later in connection with the formal opening of the drive.

Twenty-five veterans and ladies attended the meeting.

Okinawa Campaign Ends; Yanks Lose More Than 35,000

By ROBBIN COONS

Guam, June 21 (AP)—The end of the Okinawa campaign after 82 days of savage fighting was announced by Adm. Chester W. Nimitz today, giving American forces a strategic base only 325 miles from Japan.

The text of Nimitz' brief communique read:

"After 82 days of fighting the battle of Okinawa has been won. Organized resistance ceased 21 June. Enemy garrisons in two small pockets are being mopped up."

Costliest of all the Central and Western Pacific campaigns, the battle of Okinawa took a toll of 35,116 Americans killed and wounded up to four weeks ago, and cost the enemy more than 90,000 dead.

Mop Up Two Small Pockets

While the big guns of the fleet and the artillery battalions fell silent, U. S. Tenth Army forces still hammered with tanks and flamethrowers at two small pockets on the southern tip of the island, mopping up a handful of Japanese who refused to surrender.

Adm. Chester W. Nimitz in a special communique declared all organized resistance had been crushed.

His announcement was made shortly after Gen. Douglas MacArthur reported from Manila Gen. Joseph W. Stilwell, chief of Army Ground Forces, would take over command of the Tenth Army.

Victory was proclaimed only three days after Stilwell predecessor, Lt. Gen. Simon Bolivar Buckner, Jr., was killed by a Japanese shellburst as he watched the final, decisive assault.

It fulfilled Buckner's prediction, made a short time before he was struck down, it was unlikely the enemy could hold out more than a week longer.

Jap General Is Holed Up

Presumably one of the remaining pockets was near the southeast shore where the Japanese general commanding the garrison was holed up. The other probably is near the center of the front.

The general's stand cost the Japanese 87,343 killed and 2,565 taken prisoner up until Tuesday, and the few soldiers still beside him were hungry, thirsty and short on ammunition.

U. S. Army and Navy casualties from March 18—when fleet units bombarded Japan's inland sea in preparation for the invasion—to May 24 were 9,602 killed and 25,514 wounded—but they do not include the last four violent weeks of the campaign.

Largest Japanese island captured by Nimitz' forces, Okinawa was invaded Easter Sunday, April 1, with two strategic objectives.

First was the tightening of the blockade of Japan. The second was to provide fields for large numbers of American bombers to hammer Japan into surrender or to soften the home islands for American invasion.

4,096 Jap Planes Shot Down

Against the invaders of Okinawa, the Japanese flung kamikaze (suicide) pilots and planes against the American supply ships crowding the surrounding waters, sinking at least 24 and damaging 54, most of them light, small vessels.

In all the enemy lost, by the last announced count, 4,096 planes but still they could not halt the flow of supplies.

While the Japanese had yet to acknowledge the fall of Okinawa, the Tokyo radio admitted that only a "handful" of Japanese still fought on.

It described the garrison's "valiant resistance" as an example of what the American forces "can expect in the forthcoming battle of the homeland."

The Japanese have been speculating on where the Americans will strike next, whether at the heart of the homeland or on the Chinese mainland, 450 miles west of Okinawa.

They have reported at least two U. S. task forces are on the loose in waters west of Okinawa with large numbers of supply vessels and assault boats anchored in Okinawan waters.

Japanese fought stubbornly to the last although they were running out of ammunition, food, and water. They employed machineguns, rifles and mortars to the fullest while the Yanks relied on flamethrowing tanks, demolition charges and automatic weapons.

Last Friday, Buckner told Associated Press Correspondent Al Dopking:

"I can't see this battle lasting more than a week longer." Buckner was killed at the front Monday, watching the start of this final, victorious assault.

Eight hundred eighty-five Nipponese surrendered the first three days of this week—probably a Pacific war record—but there was no weakening of their comrades' determination to live up to the Bushido command to kill 10 Yanks before being conquered.

REAL WORK OF 'FRISCO PARLEY IS COMPLETED

By JOHN M. HIGHTOWER
(Associated Press Diplomatic News Editor)

San Francisco, June 21 (AP)—A charter embracing the views of 50 United Nations was wrapped up today into a world document designed to maintain peace.

President Truman, now taking a brief holiday in Washington state, will bring the United Nations Conference to a formal close with a speech on International Affairs Tuesday afternoon.

Until that time the delegates of the 50 nations represented here will be busy with a variety of technical problems and speech-making sessions. But the real work of the conference, which met April 25, is accomplished.

New Compromise
It reached that stage last night. A committee approved an Australian-Russian compromise empowering the proposed general assembly of nations to discuss and make recommendations on any question "within the scope of the charter" written here.

Thus ended a long struggle by small nations to make the assembly a "town meeting of the world" potentially capable of exerting the pressure of public opinion on the big-power-controlled security council, even though it could exercise no control over the council directly.

Victor Andrade of Bolivia, chairman of the committee on assembly powers, attributed leadership in this struggle to Foreign Minister Herbert V. Evtatt of Australia.

The last commission session to go over a chapter of the charter was called today to receive the report of Andrade's committee. From the stage of commission action the conference will move through plenary sessions in which the four commissions will formally report various sections of the charter for approval.

Truman Arrives Monday
Secretary of State Stettinius announced yesterday that the charter would be signed Monday. A special room, with a huge round table, blue-covered against a background of United Nations flags, has been prepared for that ceremony.

The President will arrive Monday in time for the signing and will remain through the closing session about 24 hours later. When he leaves to fly back to Washington by way of his home town, Independence, Mo., he will take the charter with him to submit to the Senate with a plea for speedy ratification.

Among sections of the charter which won committee approval yesterday and last night was a chapter setting up a system of international trusteeships for government of internationally-held territories and also setting forth standards for colonial powers in the government of all dependent peoples.

The charter does not specifically mention independence but it promises the development of self-government and free political institutions.

ELKS' EFFORT

(Continued from Page 1)
ties, summed up in the report, have been the establishment of more than 400 schools for training young men desiring to take aviation cadet courses; the recruitment of men for the Naval Air Corps, ground crews for the Army Air Corps, and volunteers for the Army Corps of Engineers and the Navy Seabees; the evacuation of children from war zones; the collection of books for the Merchant Marine; the recruitment of nurses for veterans' hospitals, and the establishment of Elks' fraternal centers to provide meals, relaxation, and overnight accommodations for those in the armed services.

Varied Activities
The report tells how the Elks War Commission in cooperation with the subordinate lodges, have promoted letter-writing to members in the services, and have sent gift boxes and supplies of cigarettes and tobacco overseas.

Elks are providing entertainment for more than 150,000 convalescent veterans in hospitals throughout the nation, the report points out. Yet another activity has been the aid given to internees recently released from Jap camps in the Philippines.

DISTRIBUTION OF

(Continued from Page 1)
non-federally inspected commercial slaughterers whose total yearly production of all species is two million pounds or more; Class 2B—all other non-federally inspected slaughterers.

Under the provisions of the order, slaughterers must, during each reporting period, deliver into each county at least 80 per cent (by weight) of the proportionate amount he delivered into that county each of his first full three reporting periods of 1944. Class 1 and Class 2A slaughterers will file their reports of the amount of meat delivered to counties with the OPA Regional Office and Class 2B slaughterers will file their reports with the Harrisburg District OPA office.

In China

Chungking, June 21 (AP)—Chinese troops converging on the former American air base city of Luichow have joined forces six miles south-west of the rail and road junction and another force from the west has reached a point 10½ miles away on the Kweichow-Kwangsi railroad, the Chinese high command announced today.

The linked Chinese forces, pressing toward the suburbs of Luichow, were engaged in bitter battles with the enemy, although some observers believed the Japanese planned to abandon Luichow. Chinese forces have advanced to within three miles of Luichow airfield, U. S. 14th Air Force bomber base wrecked and abandoned to the Japanese seven months ago.

Bus Driver Wiped Perspiration And Drove To Hospital

Philadelphia, June 21 (AP)—The bus driver wiped the perspiration from his brow, told the 30 passengers to take their seats and drove them to a hospital early today.

The Philadelphia Transportation Co., bus had just careened for 300 feet, bumped over a culvert, rolled down a four-foot embankment at a traffic intersection and rolled up the embankment to another street. It jumped two curbs and knocked down two sign posts enroute.

The driver said he lost control when the headlights began to fail. The hospital treated 21 passengers. None was injured seriously.

Trieste To Remain In U.S.-British Hands

Trieste, June 21 (AP)—The disputed city of Trieste will remain entirely in British and American control pending the final peace settlement of an agreement signed by British, American and Yugoslav authorities partitioning for occupation purposes the Venezia Giulia area of pre-war northeast Italy.

The agreement, signed yesterday, set up a so-called blue line for administrative purposes. British and American troops will occupy the area west of the line and Yugoslav troops the eastern area. The line roughly follows the Isonzo river, running from the old Austrian border north to points about four miles south of Trieste.

British-American authorities will administer the city of Gorizia, and will occupy the port of Pola on the southern tip of the Istrian peninsula, 100 road miles south of Trieste.

War Bond Names To Be Re-printed

Mrs. F. K. Schwartz, chairman of the Women's Division of the Adams County War Bond committee, today reported every effort is being made to have names printed in the proper section for display on the War Bond board in center square.

Hitherto printed in indecipherable ink, a change will be made due to rain washing the names from the exposed slots. Mrs. Schwartz stated the board will remain on the square for an indefinite period.

JOSEPH BUCH DIES

Trenton, N. J., June 21 (AP)—Joseph G. Buch, chairman of the New Jersey Crippled Children's commission, died at 8:30 a. m. today at his home here.

ATTENTION!

Navy, Marines, Coast Guard

A new Post Office and Navy department regulation definitely prohibits the mailing of newspapers to persons in the Navy, Marines and Coast Guard outside the Continental United States unless specifically requested by letter and paid for by someone other than the publishers. The new order is similar to the one invoked by the Post Office and the War department two years ago.

The new restriction becomes effective July 1. On and after that date The Gettysburg Times is prohibited from sending its daily or service edition to any person in the Navy, Marines and Coast Guard outside the Continental United States unless said person specifically requests the paper. The request must be made in writing. The subscription must be paid for by the recipient or by some one other than the publisher.

The new order affects all newspapers in the United States. The Gettysburg Times, believed to be the first newspaper to send its editions FREE to all persons in all branches of the service, inaugurated this service in 1940. Two years later, because of the rationing of newsprint, a special Service Edition, containing all the local news of Adams County, and stripped of all commercial advertising, was substituted and addressed to Adams countians all over the world, without charge. Two years ago the Army and the Post Office department, in order to conserve shipping space, barred FREE newspapers outside the U. S. and directed that all such subscriptions must be paid for by someone other than the publisher. The Navy and the Post Office department now evoke a similar regulation, effective July 1.

Those in service, outside the United States, who desire to continue receiving The Gettysburg Times are urged to order their subscription by mail now . . . or parents, brothers, sisters or any other individual may order a subscription for some loved one in service by writing The Times now and paying for the subscription in advance, either by the month or by the year.

UNCOVER SECRET NAZI PLANS FOR NEXT GREAT WAR

Washington, June 21 (AP)—A Senate committee said today it has obtained secret German documents showing how the Nazis intend to "hide" in strategic industries while planning "a third attempt at world conquest."

The announcement was made by Chairman Kilgore, (D-W. Va.), of the War Mobilization Subcommittee of the Senate Military group.

Kilgore said his committee will open hearings next Monday "on the economic base for German aggression" and that additional facts will be brought out.

The announcement contained a report on a meeting of German industrialists at Strasburg, August 10, 1944, intended to make postwar plans.

Masquerading
This document, Kilgore said, "is evidence of how German industry worked hand in hand with the Nazi party to unloose against the world a war of aggression."

"Documentary material of this type shows that with the defeat of the German army and the discrediting of the Nazi party, the German cartels are attempting to disassociate themselves from their co-conspirators."

"Masquerading as 'neutral businessmen' without political allegiance, they have already conceived vicious plans for a third attempt at world conquest."

The committee apparently obtained some of its information on a recent trip to Europe, although it has conducted a continuing inquiry into the broad economy of Germany.

Their Post-War Plan
The document on the secret meeting quoted a Dr. Scheid, SS Obergruppenführer of the Hermandorff and Schonburg company, as saying at that moment, "German industry must realize that the war can not be won and that it must take steps in preparation for a postwar commercial campaign."

"Each industrialist must make contacts and alliances with foreign firms, but this must be done individually and without attracting suspicion."

At another meeting, Kilgore said, the Nazis told the industrialists that the war was lost and "they must prepare themselves to finance the Nazi party which would be forced to go underground."

Plan New Weapons
From that point on, the document went on, the Nazi government would allocate large sums to industrialists so that each could establish a secure postwar foundation in foreign countries.

It was suggested further that the big firms set up small research units not connected with their factories, adding:

"These bureaus will receive plans and drawings of new weapons as well as documents which they need to continue their research and which must not be allowed to fall into the hands of the enemy."

Hunterstown
Hunterstown—A social evening was held Tuesday evening in the Gun club house at which time the new Methodist pastor, the Rev. Paul Denlinger, met local residents. The event was well attended.

To Recall Witness In Conspiracy Trial

Williamsport, Pa., June 21 (AP)—The government planned to recall Sidney Friedman, Scranton gasoline service station operator, to the stand today in the second Federal District court trial of Arthur A. Maskery, Scranton, and Tim Mahoney, Bethlehem.

Maskery, former OPA rationing executive, and Mahoney, gasoline operator, are charged in an indictment with conspiracy in connection with the disappearance of gasoline ration coupons from the Scranton OPA office last year.

Friedman testified in court yesterday he had received quantities of T and C stamps from George A. Nesbitt, Scranton auto accessories dealer. He said he paid between two and three cents per coupon for the stamps.

FRISCO PARLEY ENDS TUESDAY

Olympia, Wash., June 21 (AP)—President Truman, the uncertainty over the adjournment of the San Francisco security conference removed, settled down today to the enjoyment of his first vacation from the White House.

While disappointed that he had to alter his original plans to bring the meeting to a close with a speech Saturday, the President was represented as pleased that the way has been cleared for final action next Tuesday.

He called in reporters and radio men from his first news conference outside of the White House at 10 a. m. (Pacific War Time) at which time he was expected to discuss developments at San Francisco and possibly talk about his forthcoming "Big Three" meeting at Berlin.

Plans for the remainder of the President's stay here, Press Secretary Charles G. Ross reported, are indefinite.

"His principal idea is to relax and rest," Ross said.

Mr. Truman will fly into San Francisco Monday, arriving about 2:30 p. m. (PWT), witness the signing of the projected peace charter, and address the closing session at 4 p. m. (PWT) Tuesday afternoon.

Record Crop Of Green Peas Ready

Harrisburg, June 21 (AP)—An all-time record crop of green peas suitable for canning and freezing has resulted in, Pennsylvania processing plants being forced to work overtime to prevent spoilage.

The Department of Agriculture said some plants were working on a 24 hour basis, using all available labor including war prisoners, to harvest the crop.

"The crop is highly perishable and must be handled without delay," said D. M. James, supervising inspector of the department's bureau of markets.

Anticipating heavy demands for canned and frozen peas to meet the food shortage, Pennsylvania growers planted over 20,000 acres this year, an increase of 4,000 acres over 1944.

Continued wet weather was retarding planting of silage corn in northern counties and in some sections the hay harvest was retarded by continuous rain.

Soldier To Attend Father's Funeral

Washington, June 21 (AP)—A McKeesport (Pa.) soldier whose father dropped dead Tuesday on welcoming the youth home on a three-day visit, will be permitted to attend the father's funeral Friday.

Rep. Weiss (D-Pa.) told a reporter that he "had had to take it up with the War Department" before Pvt. Stephen Grivna was granted a 10-day extension.

Weiss said officials at Eglin Field, Florida, earlier had turned down the bereaved soldier's request for an extension.

The congressman said he had planned to call the case to the attention of the house but that army enlisted personnel branch officers checked into it for him and reported it "a misunderstanding."

Grivna went home on a three-day delay enroute from a Texas air field to Eglin Field. When he walked in the door of his home, Weiss said, his father, Paul, clasped his hand and dropped dead.

Leaves From Diary Of War Correspondent

By HENRY B. JAMESON
(Substituting for Hal Boyle)

London (AP)—They don't give medals to elephants but no story of how the long, drawn out war in Burma was won would be complete without mention of "Elephant Bill" Williams' unique army unit.

There is no other military outfit like it anywhere. It is a labor company made up solely of elephants—more than 200 of them—and their handlers.

Their main job was building log bridges and carving roads through dense jungles where no roads existed before. But the elephants carried out many other important assignments like evacuation of the sick. Each animal could carry three men 12 miles a day over roads that were impassable even to mules.

Shuttle System
Boss man is Lt. Col. J. H. Williams, one of the world's foremost experts on organization of elephant labor who is known throughout Burma as "Elephant Bill." He is a tall Cornishman who fought with the Devon regiment in Egypt, Mesopotamia and India in the last war and then spent 26 years in Burma as an employee of the Bombay-India Burma trading corporation.

The use of elephants in the Burma campaign dates back to 1941 when civilians were evacuated during the retreat from the Chindwin river to the Imphal plain. A shuttle system was operated from Sitauing to Tamu.

About 5,000 elephants, formerly belonging to the big teak extraction firms and local contractors, were left behind in Burma. The Japanese, who had used this type of transport in bringing their mortars through Siam, continued to use them in Burma.

Rescue Vehicles
In November, 1942, a group of British officers and natives, headed by Col. Williams, managed to "persuade" 60 elephants to bolt from the Japanese lines on the Chindwin banks. Women and children volunteered as Mahouts.

This herd, was the embryo of the present organization. By the time the 23rd Indian Division reappeared in the Kabaw valley the elephants had bridged all the streams, enabling the division to bring all its vehicles in.

However, the first showers of the 1943 monsoon trapped many of 23rd vehicles and the elephants squeezed back through the mud to drag the bogged trucks and guns out to high ground. By the time the army was ready to return after the monsoon, all the bridges again had been re-laid by the elephant gang.

Paris, (AP)—American enlisted men now have their own Paris night club, where champagne is sold for \$8 a bottle and cognac for 50 cents a shot.

The big Club Coliseum, operated by a Frenchman under supervision of the army special services, maintains the best Paris traditions of festivity.

Even so, the prices are pretty high and the cost of one bottle of champagne represents the total amount of money the average private in the European theater of operations keeps out of his monthly pay.

But the customers apparently enjoy the hot music, the dance arena with plenty of jitterbug room and a floor show which in America might run the risk of a police raid.

No Luxury Taxes
The army special services approved the project as a private enterprise, and merely is supervising the steady flow of cognac and champagne. The French government knocked off the luxury taxes. Champagne in other Paris night

Legion Objects To Release Of Objectors

Harrisburg, June 21 (AP)—The Pennsylvania American Legion today objected to release of any conscientious objectors from work camps until every war veteran is back home.

Commander William J. Rhoads said "it would be a definite affront to your fighting man and a needless insult to release even one of these fellows while thousands of our men, with many months of combat service, must keep on fighting Japan."

The Legion's state headquarters, which released the statement said it was prompted by a proposal from the Selective Service officials in Washington to release 900 objectors from among the 8,300 serving in 113 labor camps.

"Three dollars," said a man behind her. The blonde bid again.

"Five dollars," said the man, and the auctioneer said "sold."

clubs is anywhere from \$10 to \$30 a bottle and cognac is equally high.

At its opening the night club handled more than 1,000 men and their girls—WAC's, British and French. The soldiers spent the equivalent of \$4,300 on 447 bottles of vintage champagne and 101 bottles of better-than-average cognac.

The night club was filled from the moment the doors opened at 7:30 p. m. until 2 a. m. Military police, assigned to provide friendly chauffeur service to any soldiers temporarily incapacitated, found no customers.

The boys whistled at the girl performers in the floor show. A show stopper was an arty dance by a blonde clad only in a skirt. It hit a burlesque note when one soldier yelled: "Hell, I have seen better than that at Bizerte."

CANADA MAY RATION MEAT

Ottawa, June 21 (AP)—The Canadian Cabinet, studying this country's relatively bountiful meat supply against the background of a world wide food crisis, probably will order rationing of civilian consumption in the near future, it was learned today.

Canadian meat production, which has made the Dominion a principal provider for Allied armies and the United Nations and has stocked civilian tables to the envy of other peoples, is now running tighter.

Rationing would be aimed at distributing civilian supplies more equitably and making more available for export to a famine threatened world.

Although the official Canadian position has been that meat rationing has been unnecessary since it was abandoned 15 months ago, there has been a growing agitation for the step within Canada in recent weeks.

Proponents of rationing declare it is now necessary to ease increasing domestic shortages which are creating black markets, to provide more meat for starving Europeans and to end criticism of Canada's non rationed status which has been coming from the United States.

Bradford Rotary Club Wins Award
Chicago, June 21 (AP)—The Rotary club of Bradford, Pa., will receive the Rotary International president's district award as the outstanding club among the 35 Rotary groups in Pennsylvania's District 175, Rotary headquarters announced today.

The citation, awarded for significant achievement in promoting the ideal of service during 1944-45, credits the club with contributing a substantial sum of money to the Rotary club of Bradford, England, for war service activities, and for taking the lead in organizing the UNRRA April drive for clothing for needy persons throughout the world.

The club also was cited for continuing its activities in behalf of crippled children, for organizing a cancer clinic at Bradford hospital and for helping in the work of the "B-Hive" youth center.

Phila. Pigeons Given Reprieve
Philadelphia, June 21 (AP)—The pigeons in the public squares and parks of Philadelphia have been given three months to leave before they are exterminated as a health menace.

The order to destroy the birds by gas because nearly half of the pigeons are infected with ornithosis, similar to parrot fever, was delayed because this is the mating season, William Phillips, manager of the Pennsylvania society for the prevention of cruelty to animals, said yesterday.

Meanwhile, bird lovers continued to feed the pigeons although Dr. Rufus S. Reeves, director of public health, had warned that practice was dangerous.

**Governor To Help
Welcome Generals**
Pittsburgh, June 21 (AP)—Gov. Martin will be on hand next Monday for what will probably be Pittsburgh's largest celebration when three high ranking Army generals and an entourage of 64 officers and enlisted men land after a flight directly from Germany.

Two of the generals are Pennsylvanians—Gen. Joseph T. McNarney, commander of the Mediterranean theater and former deputy chief of staff, is a native of Emporium and Gen. Jacob L. Devers, commander of the Sixth Army group, is from York.

The third is a Texan, Lt. Gen. William H. Simpson, commander of the famed Ninth Army which captured the Ruhr valley.

Mayor Scully has proclaimed the day as European heroes day and disclosed the names of district men in the party, the largest number flown from the European theater so far.

Without Painful Backache
Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, grating up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for . . . Don't's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get . . . Don't's Pills.

OPPOSES NEW DRAFT RULES

Harrisburg, June 21 (AP)—Clyde A. Zehner, chairman of the Pennsylvania war board of the U. S. Agricultural Department, claims new requirements for deferment of draft-age farm workers will work hardships on farmers "who occupy small acreage and are dependent on horsepower and antiquated equipment."

Zehner said the state Selective Service will require 20 points of food production per man instead of the previous 16 points to qualify for agriculture deferment.

A point, he stated is "measured by the number of hours required to care for one dairy cow, ten head of beef cattle, two acres of potatoes, or four acres of corn, with comparable values set up for all other farm crops."

Many of the plain sects, because of religious scruples against use of mechanized equipment, will find "it difficult to produce more than 16 points per man," Zehner said, adding:

"Among these people, particularly the Amish of Lancaster county, farms have been subdivided into small parcels so that the total production per man has sagged below the state average even in the most fertile areas of the state."

SUMMER

This is summer, so they say. Definitely here to stay. Up to now the blossoming has been labor of the spring.

Hence, until its course has run, Dawn will bring the summer sun. Shining on these summer stocks: Roses, phlox and hollyhocks.

Scholars who are very wise In the knowledge of the skies, Venus, sun and moon and Mars, Northern lights and shooting stars Tell us in our temperate clime: Now beginneth summer time.

With this morning we can say: Springtime left us yesterday.

Summer's with us once again, Soon to ripen fields of grain, Tint the cheeks of apples red, Keep the bees with honey fed, Coat the children, small, with tan, Lure afar the fisherman.

Summer—time of rich delight—Slipped into the year last night.

Today's Talk
THAT VOICE OF YOURS

One of the greatest of all marvels of creation is the human voice—in speech and in song. Just imagine the voice of a Patrick Henry, or a William E. Gladstone, or a William Pitt—a Wendell Phillips, or Winston Churchill! Voices that have swayed multitudes toward right thinking, and to the espousal of great issues.

Or take the voice of a Jenny Lind, or a John Charles Thomas, or a Chaplain. What power for great good! It was stated of Ira D. Sankey, who sang for the great religious meeting of Dwight L. Moody, that he sang more people into a religious life than Moody did by his marvelous speaking. Both, however, were a great team of voices.

But take our everyday life. How powerful is the human voice as a thing of persuasion. The salesman counts upon it as his greatest asset. The political speaker as his greatest stock in trade. The great following of the late William Jennings Bryan was largely because of his oratory. And we all know what an asset the voice of the late Franklin Roosevelt was in elevating him and keeping him elevated to the very last. Never have I listened, however, to more perfect voice expression and sincere delivery than that of the late Woodrow Wilson.

It was the voice of Napoleon that often turned the tide of battle for him, as he briefly sent out his commands to his soldiers. He made them feel that it was the voice of France.

There are few assets so powerful or so valuable as the well-modulated, cultivated voice. We are attracted to the quiet, sincere ring of the friendly voice. And how potent it is on the part of the minister, the physician, or the nurse. How I would like to have heard the voice of the Great Teacher, as he spoke to the multitude and gave forth that greatest of all discourses—The Sermon on the Mount!

Great salaries are paid by the radio merely for beautiful voices. Their effect upon a hearer cannot be estimated. Do not neglect that voice of yours. It is one of your greatest assets. Make it do service for you. Keep it clear, always well modulated, and make it express the feeling that comes from your heart.

Tomorrow Mr. Adams will talk on the subject: "Ronnie."

Predicts War With Japs To Last Into '47

By J. M. ROBERTS, Jr.
(AP Foreign Affairs Analyst)

The Tokyo radio, broadcasting as though it had something new, deviated today from its recent fretting over imminent invasion to record that the United States has started long and complicated preparations against Japan.

That's not exactly what you would call a military secret. Aside from unconditional surrender, the Japanese have no other future, and there are few signs that are being considered. Tokyo broadcasts with the subject are almost identical with those which emanated from Berlin a few months ago. One official broadcast that, for the Japanese people, "there is no choice but to take death."

The big question is when we will be able to deliver that death. It can be answered specifically only by events.

Clean-up operations are proceeding throughout the Pacific while the invasion preparations go forward.

Staging Period
Important troop contingents, released by the victory in Europe, will begin to arrive soon.

From past performances we can expect the staging period to last for several months. Then, because of the distance from Luzon, the only staging area we now have which is capable of supporting millions of men it may be necessary to choose another staging area, so to speak, in Japan proper. This would involve capture of some outer area which could be filled with the necessary strength for the climactic attack against the heart of Honshu. This would be comparable with the establishment of the Normandy beachhead and the subsequent breakthrough toward Germany, except that in the Japanese islands it might take on more of the aspects of two separate invasions and therefore require more time. It could work like the Salerno-Anzio hop in Italy, or could involve taking one of the smaller islands before Honshu is attempted.

This is indicated by the fact that Okinawa is hardly large enough to base forces of the size which will be involved. The initial invasion of Japan, for various reasons, is likely to require considerably more men than did Normandy. Okinawa seems destined to become one big aircraft carrier, too crowded for a large army, although it may prove a big help as a jump-off point for certain short-range forces.

From Casablanca to the Elbe, America's share of the war in Europe lasted 30 months. If we think of England as the Philippines, Iwo and Okinawa as Iceland and Northern Ireland, and China as Africa, we find ourselves now in much the same position in the Pacific as the one we occupied in Europe on November 1, 1942. Since no big campaign is indicated in China now as was the case in Africa and Italy, it seems fair to look for some months in comparing the European and Pacific campaigns, provided we assume that no lengthy war on the Asiatic continent will be necessary after Japan itself has fallen.

Take it that several months will be consumed in invasion preparation, that the campaign in Japan will take longer than the one in Europe because it probably will be divided into two major steps, and we have a war which, discounting the possibility of a political termination, will run us well into 1947.

represented the local order of the Eastern Star, No. 392.

Miss Emma Culp has returned to her home on Water street after spending six months with relatives in New Haven, Connecticut, and Long Island, New York.

Control Of Red Spiders

Red spiders are not true insects; they are tiny mites which are actually small animals. They attack a large number of food and ornamental plants, particularly evergreens, butterfly bush, perennial phlox, strawberries, occasionally brambles, and several vegetables. In fact, experience proves that few kinds of plants are immune to the ravages of these little sap-sucking invaders.

It should be emphasized that red spider control is not so much a task of exterminating the pests after infestation is discovered as it is to identify the culprits. This arises from the fact that the mites are so small that they are seldom seen and their damages may be easily diagnosed as blight or foliage death from lack of moisture. However, close examination of infested plants will reveal the tiny mites, scraps of pearl-like egg shell and webbing. If an infested evergreen, for example, is shaken above a white cloth or paper, the little spiders and bits of egg shell will be easily discerned. A reading glass is useful for positive identification. The mites feed almost entirely on the under sides of the leaves.

Prevention is a wise course to pursue. Many gardeners report success from spraying with rotenone, although with the present scarcity of this insecticide this year it may prove wise to save it for more essential roles.

Several readers claim they note benefits from working fresh wood ashes into the soil before transplanting perennial phlox or sowing seed. Perhaps the main key to control of red spiders on phlox is to start combat before they become numerous. The recommended nicotine sulphate spray is recommended, or dusting with superfine sulphur may be tried.

Many years ago there was developed a glue spray to protect evergreens from spider attacks. This consists of dissolving one-half pound of ordinary carpenter's glue in a gallon of warm water and then diluting the mixture to 5 gallons with warm or cool water. Sprayed uniformly over evergreens, this solution keeps the shrubs free from spider infestation for several weeks. Of course, the recommended nicotine sulphate or the rotenone sprays may be employed safely on evergreens.

Butchers Beat OPA Charges

Philadelphia, June 21 (AP)—Steaks, a rarity in Philadelphia markets, are making an almost daily appearance these days in federal district court.

The meat is being introduced from the witness stand, some fresh and some several months old.

The butcher shop routine reached its climax yesterday when Butcher David Silverman, charged with selling two T-bones above OPA ceiling prices, walked into court carrying: Two large steaks, a weighing scale, saw, boning knife and other tools.

He laid the steaks on a highly polished table and trimmed them. Silverman said he was illustrating for the court how he weighed steaks and trimmed them with the loss in bone and fat accounting for what appeared to be an overcharge.

Year Old Steak
Silverman won an acquittal.

The second steak drama featured an almost year-old piece of meat.

OPA officials said it was a steak Louis Kravitz sold last August at an illegal price.

"What kind of meat" is it? asked Judge George A. Welsh.

"Sirloin" he was told.

The judge, saying he knew a little about meat, commented:

"This meat not only changed color and weight (since last August) but seems to have changed from sirloin to round."

Kravitz, too, was acquitted. The charge specified he sold sirloin steak at more than ceiling prices.

DI MAGGIO REJECTED
Philadelphia, June 21 (AP)—Vince DiMaggio, Phillies' outfielder, has been rejected for the armed services after a second pre-induction physical examination. DiMaggio was examined last week and ordered to report back yesterday for further tests. No reason was given for his rejection.

Two-thirds of the world's merchant fleet flies the Stars and Stripes.

STILWELL NEW COMMANDER OF 10TH ARMY

Manila, June 21 (AP)—Gen. Douglas MacArthur's headquarters announced today that Gen. Joseph W. Stilwell, chief of the Army Ground Forces, had been selected by MacArthur for the command of the U. S. 10th Army.

Stilwell, chief of Army Ground Forces, will succeed the late Lt. Gen. Simon Bolivar Buckner, Jr., who was killed in the closing days of the Okinawa campaign.

Stilwell conferred with MacArthur earlier this week. He left headquarters several days ago but still is in the Pacific area.

It is believed he will take command of the Tenth Army upon his arrival.

"Vinegar Joe" Knows the Japs
MacArthur as commander of the army forces in the Pacific has over-all jurisdiction of the Tenth Army, but the Okinawa campaign was under Adm. Chester W. Nimitz and under the operational control of the joint chiefs of staff.

Lt. Gen. Roy S. Geiger, a marine general, now is serving as a stop-gap commander of the Tenth Army in the mopping up operations on Okinawa.

The 63-year-old Stilwell, known as "Vinegar Joe," knows the enemy as do few other field commanders.

Served in China
After his long and distinguished service in the Burma-China theater, he was known to have been anxious to take another crack at the Japs.

SAY NEW BILL WOULD DISCARD YEARS OF WORK

By HAROLD W. WARD
Washington, June 21 (AP)—Labor opposition to the Ball-Burton-Hatch "Industrial peace" bill multiplied today amid a protest it would discard a decade of labor relations experience.

The three senators, Republicans Ball, (Minn.), and Burton, (Ohio), and Democrat Hatch, (N.M.), introduced the measure in the Senate yesterday as the outgrowth of 18 months' study by a committee of 13 volunteers. The committee was headed by Donald R. Richberg, one-time head of the NRA and author of the Railway Labor act, which the new legislation follows in many respects.

Sponsors said it was designed to end "legalized civil warfare" in industry in the postwar period.

To Fight Amendments

But organized labor was solidly critical. The AFL, CIO and United Mine Workers, piqued over not being consulted, rallied to support of the Wagner National Labor Relations Act. Senator Wagner, (D-N.Y.), also indicated he would try to fight off the amendments to his act which the new legislation proposes.

Chief among these are plans to supplant the National Labor Relations Board and the U. S. Conciliation service and to perform duties now handled by the War Labor Board through a five-member federal labor relations board and a three-member unfair labor practices tribunal.

Knottiest disputes would be settled, as under the Railway Mediation Board's procedure, by asking the President to appoint a special commission to arbitrate.

Preliminary examinations of the bill brought unfavorable reactions from the AFL, CIO and UMW, while the Railroad Brotherhoods own paper, "Labor," prepared a highly critical article for publication tomorrow.

Col. Lynn G. Adams Going To Germany

Harrisburg, June 21 (AP)—Col. Lynn G. Adams, former head of the state police, has received an assignment as civilian police adviser in occupied Germany.

Governor Martin granted Adams a leave of absence yesterday from his post as chief of the state protective services of the state council of defense to go overseas.

Adams' duties, which included that of coordinator in the state disaster relief setup, were assigned to Lt. Col. William E. Pierce, who recently was named acting deputy commander of the state protective services.

Adams' new appointment came from the joint council of civilian control in Washington.

Called Strike Is Ordered Off By WLB

Pittsburgh, June 21 (AP)—Officials of the federation of Glass, ceramic and silica said workers (CIO) were under orders from the war labor board today to call off a strike scheduled for 6 o'clock tonight and to keep production going in 10 plants of the Pittsburgh Plate Glass Company and Libbey-Owens-Ford glass company.

At Philadelphia, Joseph Froesch, International president of the glass workers, gave no indication whether the WLB order would be heeded.

The board's order, contained in a telegram to union officials, referred to a threatened strike of 10,000 Pitts-

V-Mail Gift Certificate

WAR FINANCE DIVISION • U. S. TREASURY DEPARTMENT

Pennsylvanians will accomplish a double purpose the week of June 17-23, when they purchase an extra bond for some serviceman overseas. The Seventh War Loan emphasizes the sale of E Bonds—"The People's Bond"—and by the purchase of an E Bond for a serviceman, Pennsylvanians will do more than help supply equipment for the men at the front, and add to the financial security so necessary to his future... they will be sending him concrete evidence that his folks at home are providing for him in every way possible.

The V-Mail letter, which will be given to each one purchasing a bond for an overseas serviceman, contains a blank War Bond facsimile. The purchaser fills in the soldier's name and other pertinent facts, then writes a greeting at the bottom of the letter.

War Bond issuing agents, both at industrial plants and War Bond booths, are prepared to assist you in forwarding to your serviceman a replica of the exact War Bond purchased for him.

SUGGESTS OPA BE MOVED TO AG DEPARTMENT

Washington, June 21 (AP)—Broadening a recommendation from Herbert Hoover, representative Jenkins (R-Ohio) today proposed a price control amendment transferring all OPA powers over food to the Agriculture Department.

Jenkins read to the House yesterday a letter from Hoover in which the former president and World War I food administrator called for "an administrative revolution" to combat meat and fats shortages.

Referring to scarcities in cities, Hoover criticized conditions he said produced black markets and set forth a 12-point program designed to meet the problem. He suggested concentrating authority under a system where no government subsidies would be required.

"The existence of black markets in meats and fats (except milk) in every city of the country," Hoover wrote, "is sufficient evidence of a breakdown in control of both distribution and price."

NAVY ASKS FOR SHIP WORKERS

The Navy emphasized the need for more workers at West Coast ship repair yards in revealing the story of the USS Nashville today.

Round-the-clock efforts of civilian workers at the Puget Sound Navy Yard, Bremerton, Wash., put the cruiser back into the fight again after it was badly damaged by a Japanese suicide bomber.

When the ship returned to the West Coast yard for repairs a serious bottleneck loomed. Only three riggers were available to remove the twisted debris from the cruiser as it was cut away; to set up necessary staging around the hull; and to lift heavy equipment to the dock for repair.

These riggers worked day and night and their efforts got the job done on time. But had more riggers been available completion of the job could have been speeded.

In addition to riggers the Navy Yards also need electricians, machinists, sheetmetal workers, coppermiths, radio mechanics and other skilled workers.

VETERAN OF 35 MISSIONS OVER EUROPE IS HOME

Staff Sergeant Donald Martin, son of Mr. and Mrs. D. Nevin Martin, of Motter Station, was home on furlough from Tyndall Field, Florida, where he is an aviation instructor. Sgt. Martin flew 35 missions over Europe as nose gunner on a Liberator. He was stationed at Norwich, England, with the 446th Bomb Group, 704th Bomb Squadron.

He took part in the sortie over the Grossbeck area dropped supplies to American paratroopers who were trapped. In this mission he stated the planes flew only 50 feet above the ground to make certain the trapped paratroopers received the supplies. As a result the plane was riddled by 35 calibre machine gun bullets, but was able to get back to its base.

Sgt. Martin flew three successive missions over the Belgium Bulge, Christmas Eve, Christmas Day and the day after, which he described as an airman's holiday, as they were briefed to blow up everything and anything of the enemy. His other missions included Brunswick, Rosstock, the Kiel Munitions Works, oil targets at Hannover, Metz, Hamburg and the Rowland oil works.

Sgt. Martin's squadron began operations April 11, 1944, and served continuously until January 16, 1945. During this time he had only one five-day furlough which he spent at Edinborough, Scotland. Although he met no one from home while overseas, Sgt. Martin remarked that he had seen the names of Lt. George Combs and Sgt. Odell Keilholtz on the register of the Red Cross club in Scotland.

15,253 YANKS RETURN HOME

New York, June 21 (AP) — The 81,235 ton superliner Queen Mary, her decks awash with 14,526 happy warriors of the Army and Navy from the European theater of operations, early today discharged the last of a record load of passengers.

The great ship, making her first westward crossing since V-E day, brought the largest single shipload of veterans to reach here since the European war ended. The number aboard was more than four times her usual peacetime capacity of passengers and crew.

Several general hospital units, including over 400 nurses, and members of bombardment and air squadrons were among those aboard. Total Army personnel numbered 12,326, while the Navy total was 2,200.

The 11,248 redeployment troops went to Camp Shanks, N. Y., while 467 liberated war prisoners and 610 men with sufficient points to permit their discharge were sent to Camp Kilmer, N. J.

Besides the Queen Mary, the Liberty ships Joseph Hooker, with 352 reassigned troops and 25 liberated prisoners of war, and the Joseph Warren, with 375 reassigned men, also docked here yesterday with returning servicemen.

SAYS PRICES AND WAGES TO GO UP

Pittsburgh, June 21 (AP) — Hiland G. Batcheller, president of Allegheny Ludlum Steel corporation, predicts that both prices and wages will go up and that the little steel formula will be broken as a result.

Back from Washington where he served as chief of operations of the War Production Board, Batcheller said at a press conference that "we can't miss having both higher prices and higher wages."

"Judging from the clamps on steel prices, I do think prices will go up more slowly than wages," he continued. "But it seems to me that the cost of living is to trend upward for some time to come, with higher wages and higher prices as the inevitable accompaniments."

"I believe the trend will be as described and the irresistible force will prove stronger than the not-so-immovable body of the little steel formula; although, for the good of all, reasonable control must be hoped for."

Batcheller gave the OPA credit for doing "a marvelous, over-all job" and said he believed governmental recognition of war contracts has been of sound benefit to the country.

75 COUPLES AT V-12 FUNCTION; OTHER ITEMS

The Mount St. Mary's college V-12 Naval students gave a dance Saturday night beginning at 9 p. m. which approximately 75 couples attended. The dance was held in the new dining hall which has only recently been redecorated after the fire in Nov. Red McCarthy and his orchestra from Harrisburg played for the Navy students and their guests and the motif of decoration was "good luck" tokens. Refreshments were served on the veranda of McCaffrey Hall.

Prior to the dance Lt. William Pyles, the commanding officer, and Mrs. Pyles entertained the Navy officers at a dinner at their home at Marsh Creek. Mr. and Mrs. Roy Maxwell entertained the following guests on Sunday, Mr. and Mrs. George Neely and Mr. and Mrs. Henry Neely and sons, Donny and Ralph, from Fairfield.

Tells Of Work In Army Of Occupation

The following are excerpts taken from a letter written in Germany since V-E Day by Sgt. Marshal Sanders, son of Mr. and Mrs. Robert Sanders, 316 East Main street, Emmitsburg:

"Life is not quite so hard now that the actual fighting is over. War is awful. You can hardly believe your own eyes. There are towns like Emmitsburg and cities like Baltimore that have scarcely a building standing. It really seems odd not to hear bombs and artillery fire. However, I think we gave the enemy a beating that they will never forget."

"I have been through a great many countries. Our division was cleaning up some Germans in Austria when the war ended. There wasn't much excitement for us then."

We felt sorry for the fellows who didn't pull through. We shall never forget them.

"Up until now, I haven't been able to tell you much due to censoring. We landed in Southern France on D-Day and had 140 days of combat duty without a day off. We entered Germany around the latter part of March. You probably heard about the capture of the German officials. The German SS troops were the toughest."

"I am with the army of occupation now and besides getting together all the German equipment, we take care of the people whom the Germans had forced to do their dirty work."

"I don't have enough points to get home, but I do have four bronze stars and our regiment has two Presidential citations."

"My flashlight is just about burnt out so I must close."

Secret Marriage Is Announced

Mrs. James Saylor has announced the marriage of her daughter, Miss Mary Ellen Saylor on May 11 to Coxswain Bernard J. Fink, son of Mr. and Mrs. Clarence J. Fink, of Thurmont. The marriage was not announced until the former Miss Saylor was graduated from the Emmitsburg high school.

The couple was married in the chapel of the Portsmouth navy yard, prior to Coxswain Fink's departure for the South Pacific area. Chaplain John C. Whitcomb performed the ceremony.

FARM TELEPHONE SERVICE TO BE EXTENDED

When the war is won, our aim will be to extend telephone service to every farm family that wants it.

New devices and methods are in the picture. For example, stronger wire that requires fewer poles and is more resistant to storms, the use of power lines to transmit telephone conversations, and radiotelephones for remote sections.

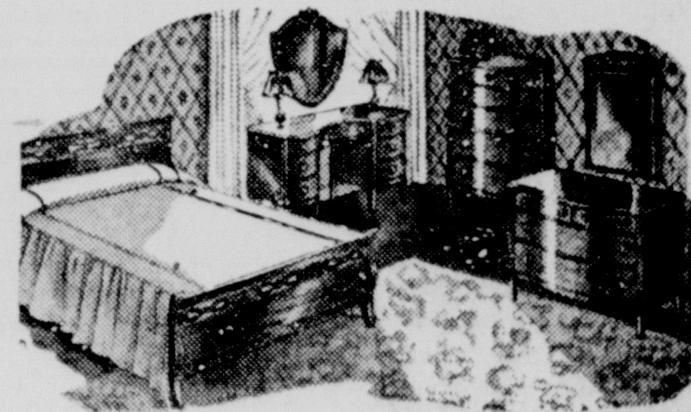

When manpower and materials are again available, we will use all practical means to attain the objective in this state.

DROP 3,000 TONS OF FIRE BOMBS ON JAPS

By ROBBIN COONS
Guam, June 21 (AP)—Superfortresses dumped 3,000 tons of fire bombs on three Japanese industrial cities Wed. setting wind-fanned blazes, which pilots said were visible 75 miles away and wiped from the map as a war target the munitions center of Shizuoka, 85 miles southwest of Tokyo.
The 450 Superfortresses, carrying out their 25th big incendiary strike, treated these secondary industrial cities to the same ordeal by fire that has erased most of the factories in Japan's greater cities.
The Tokyo radio admitted fires raged out of control for five hours in Toyohashi, also on the main island of Honshu.
Fukuoka, on the southernmost island, Kyushu, and third target of the day, was turned into a pre-dawn bonfire, pilots reported. The largest of the three cities, Fukuoka has a population of 324,000, Toyohashi 242,000 and Shizuoka 212,000.
Others Lay Mines
All three were raided before, but today's strike was their first in the great fire raid campaign to wipe out Japan's war-making centers.
Radio Tokyo said 60 other B-29s, continuing the aerial blockade of home waters, laid mines off the west coast of Honshu and in the Kanmon strait between Honshu and Kyushu.
Flames from Monday's big raid still licked at Omura, also on Kyushu, when the bomber formations

Actionist Assumes Control In Italy

Rome, June 21 (AP)—The white-haired Actionist party leader, Ferruccio Parri, assumed control of the new Italian government Wednesday as premier with the assertion that "I am just an ordinary man, not a politician."
He announced his slate of ministers last night. The Socialists, allotted three posts as were the Communists, Liberals and Labor-Democrats, expressed discontent because the Actionists and Christian-Democrats received four posts each.

Heinz Buys Land In Lancaster County

Pittsburgh, June 21 (AP)—H. J. Heinz company, announced Wednesday the purchase of the old fair grounds at Lancaster as the possible site of another food processing plant.
The announcement said the mayor of Lancaster, with approval of city council, signed an agreement with the company guaranteeing adequate sewerage and water facilities to the fair grounds which embrace approximately 55 acres.

Lt. William W. Potter, Knoxville, Tenn., described the pattern of destruction in Fukuoka thus:
"A path of flame two miles wide ran from the dock area, where several ships were burning, back inland for 10 miles. Over the central target areas, smoke rose 10,000 feet in a column two miles in diameter."
"I don't think we'll have to go back to Shizuoka," said Maj. Charles Tibbs, of Battle Mountain, Nev., a B-29 flight leader.

IDLE WORKERS CAUSE ALARM

(By The Associated Press)
The government, headed by President Truman, waved big sticks at thousands of the nation's idle workers Wednesday, prodding them to go back to jobs they had left over labor disputes.
More than 20,000 employees in vital war work in scattered sections of the country were the targets for directives from the president as well as from the War Labor Board and the office of Defense Transportation. Meanwhile, an estimated 18,000 glass workers in four states threatened to stop work today.

Transportation facilities in several areas appeared the hardest hit by the work stoppages in the east, south and midwest. The WLB acted to end five strikes while President Truman ordered Army seizure of one war plant.
In Chicago, some 1,200 soldiers manned trucks as the ODT sought to restore normal operations for the 1,700 government seized trucking lines. Speedy drafting of union truck drivers remaining away from the jobs was being prepared by ODT officials. The number idle among the 14,000 members of the two unions involved in the five-day old work stoppage ranged from 6,000 upward. They quit work in protest of a WLB wage-hour decision.

Brig. Gen. Easley Killed On Okinawa

Washington, June 21 (AP)—Brig. Gen. Claudius M. Easley, assistant commander of the 96th Infantry division, was killed in action on Okinawa Tuesday, his wife was notified by the War department Wednesday.
The 53-year-old veteran of the First World War was the second high ranking officer to fall on the island this week. Lt. Gen. Simon Bolivar Buckner, Jr., commander of the 10th Army, was killed by a Japanese shellburst there Monday.
The War department gave no details of the death of the general. The 96th Division has been fighting in southern Okinawa.

Chapter 31

Hearing the sound of voices in the hall, the doctor turned his head. He saw Kay standing there, weeping. He saw Rex Warner draw her into his arms, heard his voice when he begged, "Don't, darling, don't cry so hard."

"But I—I can't help it," she sobbed. "Why do I lose everyone I love?"

Dr. Sims walked slowly down the steps. When he reached the sidewalk he was surprised to see a score of men standing about the front of the Martin home, their faces expressionless in the light from the street lamp.

"How's Tommy, Doc?" a voice asked.

Dr. Sims knew a moment of uneasiness. He didn't like the ominous quietness of this group. He had seen enough of mobs and strikes to prefer grief and indignation at a time like this; and any expression was preferable to the silent judgement on the faces of these men.

"Tommy"—Dr. Sims heard his voice falter as he remembered the blackness of his loss—"Tommy has gone."

"It was Mrs. Lambert driving the car, wasn't it?" someone asked.

Dr. Sims made no answer. He'd pretend he didn't hear; these men would go to work on the next shift. If there was no disturbance before then.

"It was, wasn't it, Doc?" The voice was more insistent, refusing to be ignored.

"Yes," he told them then. "It was—Mrs. Lambert. And he knew without turning that the men didn't even look at each other, nor did they speak, as they moved away to the mill."

Dr. Sims looked about Lucia's living room. The place had changed so much since he'd been here years ago. The people grouped about were different, too, yet all alike in that each wore that haggard look of grief and weariness that follows death and sleeplessness.

Jimmy Brent was seated on a queer white sofa with Barbara Downs beside him. His blond hair was rumpled, his blue eyes sunken and hopeless; his handsome face washed free of worldliness. Barbara was murmuring words of comfort to him. Gradually Jimmy's shoulders straightened and he turned to Barbara with gratitude and hope in his tired face.

Ned and Francis were standing together, talking in low tones. Ned kept looking nervously at his watch. Francis' face was pale and much older, yet his dark eyes gleamed with a new force and determination. Dr. Sims realized suddenly that whatever influence Lucia had held over Francis was gone. This man was Katherine's husband standing there talking with his vice-president, planning to restore the glory of Lowell. There was no need for Dr. Sims to talk with Francis now. Francis didn't need any advice.

And Kay and Dr. Warner together on the window seat. They were silent, as though words might separate them, and they were clutching these few moments against the time they must inevitably part.

Dr. Sims saw Rex's eyes cling to Kay's left hand—Jimmy's engage-

ment ring was gone, evidently by mutual agreement. Somehow Dr. Sims had known they wouldn't marry, that Kay would find she couldn't defy her own standards.

He sighed and leaned back in his chair. Kay came quickly and stood by him. "I'm afraid you've overdone your strength, Dr. Sims. You must drink some coffee, Liza is making some. Then you must lie down."

"I thought I'd talk with Mrs. Lambert. Perhaps last night will mean a turning point to her."

"It has," Kay agreed grimly. "She's leaving Francis. She's upstairs packing now. I heard her calling about a plane to Miami."

"Oh!" At that moment they heard footsteps and, glancing up the wide stairway, they saw Lucia pause on the landing. She was beautifully dressed and holding her head with her old insolent poise. They saw the hate and contempt in her eyes for this house, for them, for Lowell. But no sorrow nor remorse for Tommy's death.

Then they saw much more than that. They saw her look out the window on the stairway; they saw the hate in her eyes turn to surprise, then fright.

"Look!" Ned cried, pointing out the windows. "I've been afraid of that!"

They all hurried to the front door. They saw a horde of mill workers crowding up the road to the Lambert house. They knew instantly these people had been overworked and keyed up to high tension for a long time over Lucia's interference and lack of sympathy; they saw the pent-up grievances, the fury, the demand for vengeance over Tommy's death.

Ned looked at his watch again, and whispered hoarsely, "No wonder the whistle for the shift hasn't blown—the mill has stopped running."

It was true. The silence of the mill was the most dreadful sound any of them had ever heard. They knew at once the workers supposed to go at this time had met those coming off, and told them of Tommy's death, they had encouraged each other to revolt against the power that had corrupted their work and their lives. The mob spirit had

IMPRESSIONS OF CONGRESSMAN WHILE ABROAD

By James Marlow
Washington, June 21 (AP)—Congressmen have been flying to Europe in relays since the war ended. They go to inspect this, that or the other thing. Then they fly back. Some make reports. Some don't.
But what do they think while they're whirling around Europe? How much will they remember? Just to be sure he'd have some record, one such congressman kept a diary.
This was Rep. F. Edward Hebert, Louisiana Democrat, who went over with a group. Every night before he went to bed he wrote his impressions of the day.

Two Dominant Thoughts
His notes total about 22,000 words. His party went to Bermuda, England, Paris, Bremen, Munich, met General Eisenhower, had an audience with the Pope in Rome, visited Naples and the French Riviera and Casablanca, returned by way of Scotland.

Two dominant notes run through his diary: The destruction and poverty of Europe and talk of Russia and Communism every place he went. "Everywhere without exception," he wrote in his diary, "communism crept into the conversation."
Here are some excerpts from his notes on events and impressions at the places he visited:

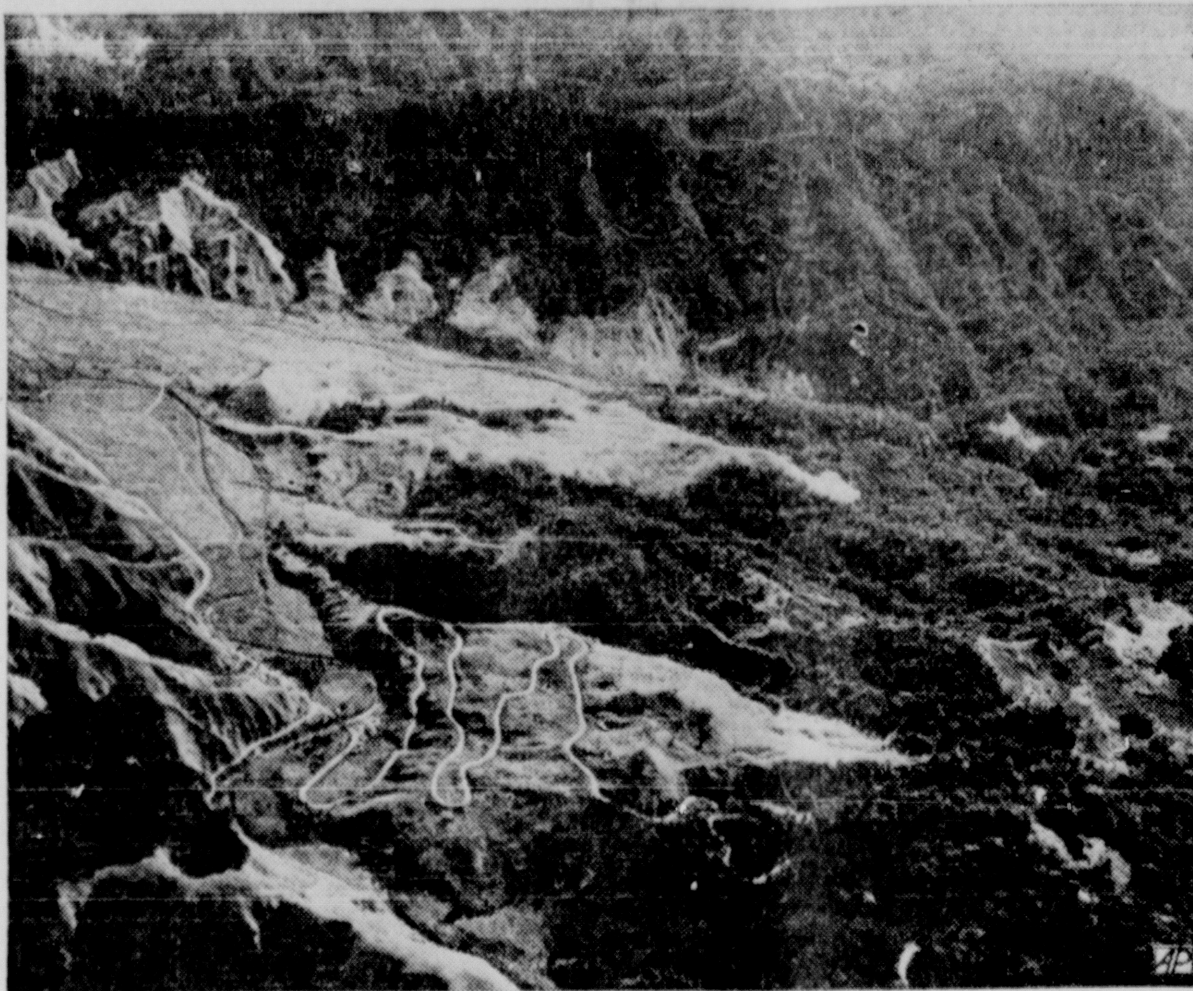

Paris:
"We are billeted in a hotel. The Germans took it when they were here. The ghost of a German officer sits beside me at the writing table at which I sit and write this at 1 o'clock in the morning. In this room rattle the skeletons of German debauchery."
There's Going to Be Trouble
In General Eisenhower's headquarters at Reims:
"The walls were covered with maps studded with pinheads of troop positions and lines of advancing armies. From these maps x x x we planned our future itinerary into Germany, Austria, Italy and Africa. O tempora! O mores!"
Back in Paris again:
"The more I hear people express themselves the more firmly convinced I am that now is the time to talk 'turkey' with Joseph Stalin and Russia. There's going to be

trouble and plenty of it from this Russia unless we deal firmly while our power is at its height. Power is the only language Russia knows and respects."

On nations and life in general:
"Oh, the nature of nations isn't so different from the nature of human beings. After all, nations are composed of human beings. How could they act otherwise?"
Naples:
"Who said 'see Naples and die?' I've seen Naples but there's nothing to want to die about. The people are half naked and dirty looking. I haven't seen such poverty-looking people in all Europe, not even in Germany. There is an air of lethargy which seems to permeate the atmosphere."
In the ruins of Pompeii:
"Human beings were human beings then just as they are today. They had the same desires, the same weaknesses and the same shortcomings as they have today. The world really hasn't changed fundamentally. x x x where do we go from here?"

RECONCILIATIONS IN PITTSBURGH

Pittsburgh, June 21 (AP)—With the primary out of the way, the two major parties in Pittsburgh today moved toward reconciling disgruntled elements in their ranks and getting ready for what may be the bitterest campaign in the city's history.
Both parties nominated the "organization slate" practically all the way down the line.
Each is headed by a veteran campaigner—the Democrats by their candidate for mayor, state chairman and national committeeman David L. Lawrence; and the Republicans by James P. Malone, Jr., Allegheny county chairman, who vindicated his leadership Tuesday by nominating Robert N. Waddell for mayor despite young Republican and elder Republican opposition.
Lawrence romped in easily, getting 50,303 votes to only 22,690 for his opponent, Register of Wills John M. Huston. Lawrence's vote was almost

the same as that cast for Mayor Cornelius D. Scully when he downed Huston in the primary four years ago, 50,975 to 36,576.
The figures given are for unofficial returns from 421 of the city's 425 districts.

HOMESICK
Salt Lake City (AP)—"I hadn't been out 15 minutes when I realized I'd made a mistake," Adelbert Budshun, 22, told Warden John E. Harris of the Utah prison, when he phoned from Ogden, Utah, after

his escape Monday.
Budshun volunteered to return to prison by himself to save guards a trip. At 4 a. m. he appeared at the prison gates.

12 CONVICTED POLES RECEIVE PRISON TERMS

By EDDY GILMORE
Moscow, June 21 (AP)—Twelve of 16 Poles accused of subversive activities behind Red Army lines were convicted by a Soviet court early today and given sentences of from four months to ten years in prison. Three were acquitted and the trial of another was postponed.
The heaviest sentence—10 years—was imposed upon Maj. Gen. L. Bronislaw Okulicki, commander of the underground home army after the ill-fated Warsaw uprising.
Jan Jankowski, deputy prime minister of the London Polish government-in-exile and leader of the Polish underground movement, was sentenced to eight years' imprisonment.

No Appeal Possible
The sentences will date from the day of arrest, March 27.
(The Moscow radio, heard in London, said no appeal from the sentences would be permitted.)
Gen. Okulicki received his sentence stoically. His only show of emotion was a tightening of the lips. As he heard the president of the military presidium, Col. Gen. Vassily V. Ulrich, read the verdict and the sentences.
Flood lights beat down upon the defendants standing in the wooden dock as the sentences were read.
Expressions of great relief were on the faces of those acquitted—Stanislaw F. Mikhailowski, J. H.

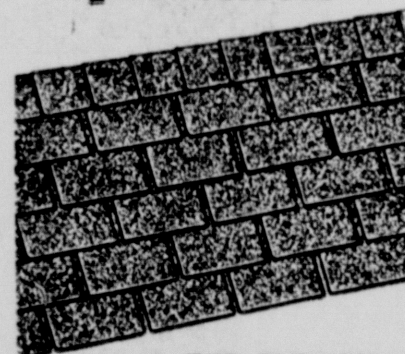

Stember-Dombrowski and K. S. Kobylanski.
Other Sentences
One defendant, Anton Paidak, had been too ill to attend the trial and he will face the court later.
The other sentences:
Adam Bien, president of the peasant party and assistant to the chief of the underground council of ministers, five years.
Stanislaw Jaskulowicz, president of the National Democrats and minister in the underground government, five years.
Kazimir Puzhak, general secretary of the Socialist party, one and one-half years.
Alexander Zwecziwersky, journalist and chairman of the National Democrats, a year and eight months.
Eugene Czarnowski, chairman of the Union Democrats, six months.
Stanislaw Merzawa, secretary of the Peasant party, four months.

THE FRUIT OF UNCEASING LABOR

★ Between 1911 and 1935, a brief span of twenty-five years, extraordinary progress was made in public health. According to figures released by the Metropolitan Life Insurance Company, the duration of human life during this period was extended by almost fourteen years. It is all the more remarkable in the light of the history of this period, which included the first World War, the worst epidemic in recent history, and America's most severe depression.

Many agencies have contributed to make America a more healthful place in which to live. Not the least of these are scientific medicine and pharmacy, which work unceasingly for better methods of prevention and treatment of disease.
